Introduction

The Temple University Fact Book and Temple University At a Glance publications are prepared annually by the Office of Institutional Research and Assessment (IRA). These publications provide a convenient and concise summary of key metrics from across the University. The facts and figures presented are designed to address frequently asked questions about Temple.

Further details and definitions are provided in the appendices of most sections. It is important to note that the information in this Fact Book may differ from data reported by IRA to federal, state and regional agencies due to differences in reporting guidelines and definitions, as well as the timing of when information was prepared.

IRA wishes to thank the individuals and offices from across the university who contributed to the preparation of the Temple At a Glance and the Temple University Fact Book publications.

Mission Statement

Opportunity. Engagement. Discovery.

Temple University educates a vibrant student body and creates new knowledge through innovative teaching, research, and other creative endeavors. Our urban setting provides transformative opportunities for engaged scholarship, experiential learning, and discovery of self, others, and the world. We open our doors to a diverse community of learners and scholars who strive to make the possible real.

We are committed to the ideals upon which Temple was founded:

- Providing access to an excellent, affordable higher education that prepares students for careers, further learning and active citizenship.
- Creating a collaborative community of outstanding faculty and staff who foster inclusion and encourage the aspirations of Temple students.
- Promoting service and engagement throughout Philadelphia, the Commonwealth of Pennsylvania, the nation and the world.

1.9 Student Admissions - Section Appendix

- All data are as of the official fall census date. This date reflects the end of the drop/add period for course registrations.
- **Acceptance Rate** – The acceptance rate is calculated as the percent of students admitted divided by the total number of completed applications. This rate differs from how it is calculated on the At A Glance, where it is calculated as the percent of students admitted divided by the total number of applications received.

The acceptance rate for graduate admissions is the average of both Master's and Doctoral. The acceptance rate for professional admissions is the average of all professional schools.

- **Enrollment Rate** – The enrollment rate is calculated as the percent of students admitted who subsequently enrolled at Temple University.

The enrollment rate for graduate admissions is the average of both Master's and Doctoral. The enrollment rate for professional admissions is the average of all professional schools.

- **Residency** - When students are admitted, a residency decision is posted. Applicants with undetermined residency are classified based on their permanent address.
- **Race/Ethnicity** – This is determined based on the federal coding/reporting rules, and includes all non-international students. Students self-identify, using the two-question format. Students are first asked if they are Hispanic, and those who respond yes are identified as such. Students who respond no are asked to identify themselves as one or more of the other race/ethnicities; those who mark more than one are counted in the two or more races category.
- **International Students** – Students are classified as international if 1.) they complete an international application or 2.) they complete a domestic application and their nation of citizenship is other than the U.S. and their visa type indicates they are neither a U.S. citizen nor a permanent resident. The Office of International Admissions reviews and makes admissions decisions for international applicants. When students arrive on campus, the Office of International Services verifies their data and enters any missing information.

The numbers of "International Students" and "Non-Resident International" students may not match at times, as a small number of International Students have a permanent mailing address in Pennsylvania.

- **Students of Color** – Defined based on IPEDS race/ethnicity definition. Students of Color include the following categories: Black or African American, Asian, Hispanic of any race, American Indian or Alaska Native, Native Hawaiian or Other Pacific Islander, or two or more races.
- **Target Zip Codes** – Includes the eight zip codes immediately surrounding Temple University's Main and Health Science campuses.

Undergraduate

- Included are matriculated applicants, domestic and international applicants, and Main, Ambler, Rome and Harrisburg Campus applicants.
- Excluded are Japan Campus applicants, Continuing Studies applicants, and Continuing Education applicants.
- Average SAT/ACT scores – Test scores are included if used in the admissions decision; method specified by IPEDS. New SAT scoring rubric was implemented in April 2016 and students' old SAT scores were concorded to the new scores.
- **Completed Applications** – An application for admission is considered complete when all required items to be considered for admission (based on application type) are submitted and considered adequate enough to evaluate and determine an admissions decision (accept, deny, etc.).
- **Enrolled** – Students who are currently registered for at least one credit for the upcoming semester. At enrollment, students who are registered for fewer than 12 credits are designated part-time.
- **Incoming First-Year** – Students who have fewer than 15 college credits.
- **Incoming Transfers** – Students who have 15 or more college credits.
- **Transfer GPA** – This is a combination of GPA's from all prior-attended schools. The ranges listed on the report are consistent with those used to award transfer scholarships. GPAs are recorded at the point of the admissions decision.

Graduate

- Included are applicants to all Graduate School degree programs, domestic and international applicants, Main, Ambler, and Harrisburg Campus applicants and applications to Graduate School programs that are part of Temple dual and joint programs (e.g., JD/MBA, MPH/MSW).
- Excluded are Japan Campus applicants, Continuing Studies applicants, Continuing Education applicants, and Doctoral – Professional Practice applicants not under the purview of the Graduate School (Law, MD, D.Pharm, DMD, Podiatry degrees).
- **Completed Applications** – This includes those who submitted the minimum elements (required reference letters, transcripts, test scores, application fee, and statement of goals) necessary for an admissions decision. Requirements vary by graduate program.
- **Enrolled** – Students who are currently registered for at least one credit for the upcoming semester.

2.12 Student Enrollment – Section Appendix

- All data are as of the official fall census date. This date reflects the end of the drop/add period for course registrations.
- Students included are matriculated (degree-seeking) and non-degree seeking students, and students in programs at domestic and international campuses (excluding Japan) registered for at least one credit-bearing course.
- Records excluded from this section are students who are registered at Temple University Japan, students who are participating in a Non-Temple Study Away Location or University Exchange, and students who are taking only Continuing Education (non-credit) courses.
- All school/college categorizations are based on the student and the primary program in which they are enrolled. On October 13th 2015, the Board of Trustees took action to establish the School of Theater, Film and Media Arts which is in the Center for the Performing and Cinematic Arts. On December 8th 2015, the Board of Trustees took action to eliminate the School of Environmental Design. The departments previously located in the School of Environmental Design are now in the Tyler School of Art.
- **Time Status** – Time status is a breakdown by full-time and part-time. Undergraduates who are registered for 12 or more credits are considered full-time; generally, graduate students who are registered for 9 or more credits are considered full-time (dissertation/thesis students and those with assistantships are typically coded as full-time regardless of credit hours). All professional-practice doctoral students in the professional schools are considered full-time.
- **Residency** – Each student has a residency code, determined and posted during the admissions process or re-enrollment processes, and maintained (updated, as appropriate) by the Office of the Registrar.
- **Enrollment by Campus** – Determined by aggregating student course data in order to calculate the campus to which the majority of the students' courses are being taken.
- **Full-Time Equivalency (FTE)** – Calculated by counting a full time student as 1 and part time student as 1/3 with professional students defaulting to full-time in all cases.
- **Race/Ethnicity** – Based on the federal coding/reporting rules. International students are reported separately, so only non-international students will have a reported race/ethnicity. Students self-identify, using a two-question format: Students are first asked if they are Hispanic, and those who respond yes are identified as such. Students who respond no are asked to identify themselves as one or more of the other races/ethnicities; those who mark more than one are counted in the Two or More Races category.
- **International Students** – Students are classified as international if 1) they complete an international application or 2) they complete a domestic application and their nation of citizenship is other than the US and their visa type indicates they are neither a US citizen nor a permanent resident. The Office of International Admissions reviews and makes admissions decisions for international applicants. When students arrive on campus, the Office of International Services verifies their data and enters any missing information. The numbers of "International Students" and "Non-Resident International" students may not match at times, as a small number of International Students have a permanent mailing address in Pennsylvania.

3.8 Fly in 4

The Fly in 4 partnership guarantees that students can complete their degree on time - or Temple will pay for the student's remaining coursework. For its part, Temple University provides its students with the resources they need to graduate in four years, like academic advising and classes offered when the students need them. There is no penalty if the student opts out of the agreement or if they take longer than four years to graduate. Each fall, Temple will award 500 Fly in 4 grants per entering class. Eligible students will receive \$4,000 per year (\$2,000 per semester). To find out more about the Fly in 4 Initiative please visit: <http://fly.temple.edu>.

3.10 Student Success and Instruction – Section Appendix

- **Retention Rate** – The retention rate is calculated as the percent retained from a given cohort based on those entrants who were enrolled at the fall census point, excluding Temple Japan and Rome. Based on IPEDS cohort. The given cohort includes students who entered into baccalaureate degree programs. Associate degree program and transfer admits have been excluded.
- **Graduation Rate** – The graduation rate is a calculation of first-time first-year students in the given cohort that were awarded a degree in the specified amount of time. The cohorts used to calculate the graduation rates are in conjunction with the rates reported to IPEDS and explicitly exclude part time students.
- Degree information is based on census file extracts created in July and includes graduations in August, January, and May. Degree counts are not updated to reflect retroactively awarded degrees. Degrees conferred are based on the IPEDS completions survey component which collects the number of degrees during the 12-month time period beginning July 1 through June 30.
- Class size percentages only include class sections that are offered for credit, identified by discipline and number, meet at a stated time in a classroom or similar setting, and are not a subsection such as a laboratory or a discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Excluded in the calculations are distance learning classes, noncredit classes, and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings.
- **Average Class Size** – The upper and lower distinction within the undergraduate level is captured through course number, with lower courses numbered up to 1999 and upper level courses numbered from 2000 to 4999. The class 'sections' and 'subsections' are the same categories used by the Common Data Set. Both include only courses offered for credit, and exclude individual instruction courses (dissertation or thesis research, independent study, internships, etc.) and distance learning courses. Each class is counted only once and not duplicated because of cross-listings. A class 'section' is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. A class 'subsection' includes any laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course.
- **SAT (Math + Evidence Based Reading and Writing)** – Average SAT/ACT scores – Test scores are included if used in the admissions decision; method specified by IPEDS. New SAT scoring rubric was implemented in April 2016 and students' old SAT scores were concorded to the new score.
